

MEP35106 PLANT TRAILER 3500kg GVW

A Heavy Duty, High Quality Trailer specifically created using the latest 3D CAD design technology, combined with over 50 years of experience and knowledge, ideal for today's professional trailer user, including plant operators and hirers.

Some of the trailers shown have optional equipment, please see over for details

The MEP35106 Tandem Axle 10' x 6' Plant trailer is built to last, with a heavy duty drawbar arrangement incorporating a bucket rest, with a Cast Towing Coupling (40mm Eye or a Locking 50mm Ball Coupling as required).

The durability of our heavy duty, low maintenance rubber torsion axles has been proven over many years in the Construction Plant industry. The excellent ride characteristics cope with operation in both laden and unladen conditions.

The MEP35106 Trailer is Hot Dip Galvanised with a fully welded 3mm section chequer plate body and heavy duty twin loading ramps, or a full width mesh ramp with twin gas assist (MEP35106FWR)

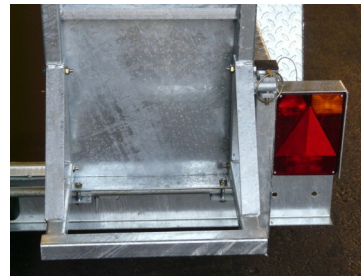

The Floor of the trailer is made from 18mm high density plywood with a tough, slip resistant waterproof resin coating on both sides.

MEP35106 TRAILER — STANDARD SPECIFICATION

	MEP35106	MEP35106FWR
TRAILER WITH:	ADJUSTABLE RAMPS (2)	FULL WIDTH MESH RAMP WITH GAS ASSIST
MAXIMUM GROSS WEIGHT kg	3500	3500
UNLADEN WEIGHT kg	770	810
OVERALL LENGTH	5303mm (17' 4") - with Ramp Support	
OVERALL WIDTH	2300mm (7' 6")	
BODY LENGTH	3080mm (10' 1")	
BODY WIDTH	1800mm (5' 11")
